

## Spirit of Mobility

[Specifications](#)[Floorplans](#)[Random Access](#)

Finally a low-floor bus built on a conventional GM cutaway chassis. Our low-floor is a rear wheel drive bus without the use of an expensive dropbox. The optional wheelchair ramp allows for easy loading and unloading through the 39" clear door opening. The interior offers theater seating for better viewing for all riders. Our low-floor bus offers a full air-ride suspension with a standard kneeling feature that allows an entrance of less than 5" from the curb without deploying the ramp. We offer a fully integrated body on chassis with full E-Coat corrosion protection and bonded-steel structure.

**Best Value in Low Floor Technology.**
